About Reach

Being young is not without its struggles. Today's world is pretty complex and young people can experience a bunch of challenges that adults might not be able to relate to. One of the biggest hurdles is just having the confidence and support to be who they want to be.

There are currently over 4 million young people living in Australia, and Reach works with over 40,000 of them a year. We have over 250 of them working for us; designing and delivering workshops in schools and the community. Our workshops are 100% youth-led, from design through to delivery, and the community we create out of these workshops is one that allows for deeper connection, a sense of belonging, and the dispelling of judgements. A preventative, instead of having to focus on symptoms in adult life.

Wellbeing support framework

Underpinning the design and delivery of all workshops is a framework of professional wellbeing support, to ensure emotional safety and positive youth connections.

Reach's professional Wellbeing team connects with your school's wellbeing staff prior to workshops to understand the needs of individuals and the whole class/cohort, and to enable responsive follow up. The team will also assist staff to determine the appropriate follow-up for individual students if necessary.

Outcomes

Heroes Day aims to achieve the following outcomes for participating students.

- Reframe the way challenges are perceived and faced
- Build social and emotional skills
- Increase self-awareness
- Develop more meaningful connections with each other
- Develop increased motivation for making positive life choices

Content

Heroes Day are designed and delivered by a dynamic team of Reach crew, ensuring a relevant, challenging and captivating day for students. This highly experiential workshop uses the powerful metaphor of the 'Hero's Journey' to help young people explore their own lives and reframe challenges they may be facing.

By integrating social media and mobile technology, students can continue to take action and be supported by Reach, after the workshop ends.

To effectively build the resilience and social and emotional skills of students, we highly recommend the workshop combination of Heroes Days for your students, and the Finding Heroes Professional Development workshop for teachers.
